*CHEF'S CHOICE

Chef's Choice is applied to all our food concepts and means that we create our menus on the same day. What is served varies in other words. By letting the chefs choose ingredients depending on the season and availability, we can use the resources available. In other words - sustainable food.

WE FIGHT FOOD WASTE - WFFW

At K-Märkt we care about our planet and we work daily for a reduced food waste. A much, much bigger problem than many people think. We use several methods to reduce our food waste where Chef's Choice is one of them.
